

REMARKS

This amendment is submitted following the Notice of Allowance in the subject application and is solely for purposes of clarifying a potential antecedent basis issue in the two independent claims in the subject application, namely claims 1 and 31. The same change is being made to each claim.

Specifically, the word "module" in the third line from the end of each claim is changed to the word "unit" to be consistent with the use of the term "second graphics processing unit" found at the sixth line from the end of the same claim in the phrase "second graphics processing unit." Further, the last word of the claim is changed from "images" to "image portions" to be consistent with the use of the terms "first portion of an image" and "second portion of an image" found in the second paragraph from the end of each of the claims.

Clearly, these changes are made solely to clarify a possible question as to antecedent basis for the limitation. There is no need for any further consideration, examination or search by the Examiner prior to entry of this change. Further, this amendment has been submitted prior to payment of the issue fee so that the submission of the amendment is timely. Therefore, entry of this amendment is respectfully requested.

Respectfully submitted,

James A. Sheridan
